Date:

Tell me about your child's experience last year. Is there anything about their past educational experience that you'd like us to know?

How is your child feeling about the start of school? What specific concerns or excitement has your child expressed?

What are your child's greatest strengths or skills?

What types of communication will be most helpful throughout the school year? Are there other supportive adults I should include in my communication with you?

Is there anything else you'd like us to know that will help us support your child?

What languages are spoken in your household? Would translated school communications be supportive for your family? Will you request a translator for meetings with school personnel?

Are there other important people in your student's life you would like us to know about?
